

RICHARD BROWN

Richard Brown graduated from the University of Utah in 1977 with a Bachelors degree in Meterology. He worked at Oceanroutes for 27 years, in many positions including Met. Tech, Route Analyst, multiple manager positions, then finally V.P of Operations. Richard worked at Aerospace and Marine as the V.P of Operations for three years. He has worked for StormGeo for the past 12 years, in business development positions and V.P of Operations. He is currently CEO of Shipping since December 2016.

StormGeo provides weather forecasts, environmental data, and advice on the course and speed the vessels should sail to optimize a voyage for on time arrival, safety minimizing costs, and reducing emissions. StormGeo provides weather routing services for over 5,000 voyages globally each month and has an operational staff of about 120 employees based in California, New York and Scotland, with 24/7 coverage. The routing team is comprised mainly of Meteorologists and people of the maritime industry.

Richard enjoys skiing, gardening, reading and golf. He is married to Anita Brown who worked as a school teacher for over 40 years. He has one son, Matthew who attended the University of Utah from 2004-2010 and graduated with a combined Bachelors and Masters degree in Computer Science. He now has his PhD in Artificial Intelligence from USC and works for a startup in Santa Monica, California.
